Internship Tips

1. **Remember that you are learning** and that it is okay to know how to do everything right away.
2. **Ask for supervision** as much as you need it.
3. **Advocate for yourself.** If there is something you are hoping to learn, work out plans with your supervisor to make this happen. You are not set to only doing things on your internship plan.
4. **Start your projects early.**
5. **Be Flexible.** Things can change quickly in a school, so you may have to rearrange your schedule to fit the needs of the school that day.
6. **Get familiar** with the pre-referral process and special education evaluation procedures in your school.
7. **Get to know** the administrators, school counselors, and teachers. They will be great resources for student information.
8. **Get involved** and go outside your comfort zone. It will help you form your path and decide what roles you want to have when looking for a job!

CONGRATULATIONS TO THE 2021 MASTER'S DEGREE AND EDUCATION SPECIALIST GRADUATES!
